

# FLEET MANAGEMENT

---

Our cost effective solutions and deep understanding of utility fleet management, allows us to focus on maximizing the efficiency, safety, and reliability of your fleet vehicles. Our dedicated team of experts work closely with you to tailor solutions that meet the specific needs of your fleet, ensuring compliance with regulatory standards, and enhancing overall performance.

# FLEET MANAGEMENT PROGRAM

## RENTALS

Our full service utility fleet provides you with immediate access to weekly, daily, monthly or long term rentals. Allowing you to swiftly pivot when unexpected work is awarded and keep overhead costs in check. Our fleet consists of buckets, diggers, track units and service buckets.

## REFURBISHMENT

Designed to extend the lifespan and improve the performance of utility fleets. Over time utility trucks can experience wear and tear, leading to decreased efficiency and reliability. Our program aims to address these issues by refurbishing and upgrading the trucks to meet industry standards and regulations.

## PREVENTATIVE MAINTENANCE

Our preventative maintenance program is a systematic approach to maintaining and servicing vehicles in your fleet to prevent breakdowns, extend vehicle lifespan and ensure optimal performance. Our program involves regular inspections, maintenance tasks and repairs to identify and address potential issues before they become major problems.

## ACQUIRING NEW UNITS

Acquiring new units requires careful planning and consideration, our network and expertise will allow you to scale your fleet to fit your needs and budget. While at the same time assuring that these new purchases align with your fleet goals.

## ASSET TRACKING

GPS and telematics systems are used to track the location and performance of fleet vehicles and equipment. This helps optimize routing, monitor driver behaviour and improve overall fleet efficiency.

**By aiming to maximize the efficiency, safety and reliability of fleet vehicles and equipment, we can provide you with a diverse and robust fleet, ultimately contributing to the smooth operation of essential services.**

**Our Utility Equipment Specialists will work with your fleet managers to develop a tailored program to meet you specific needs.**
